

Sage 100 ERP e-Business Manager

Available Tables in Templates

Product Pages

These are the templates that list the inventory items in e-Business Manager:

products_no_tree.htm
products_nt2_single.htm
products_nt2_single2.htm
products_nt2_multi.htm
products_nt2_multi2.htm

If frames are in use, then the Product Template is products_dtl.htm.

The product sections of the templates pull data from these tables:

CI_Item.M4T
IT_Item.M4T

If you are displaying the quantity available and you only have one warehouse or have elected to display the Customer Warehouse quantity only, then the Item Warehouse data is available.

IM_ItemWarehouse.M4T

Item Page

There are two item pages, item.htm and item_fames.htm to use with frames.

The item templates pull data from these tables:

CI_Item.M4T
IT_Item.M4T

CI_Item.M4T
